SUMMARY

Electrical Engineering graduate (B.A.Sc. Honours, University of Windsor) with an Advanced Diploma in Mobile Applications Development (St. Clair College, 4.0 GPA). Experienced in software testing, troubleshooting, and technical instruction. Available for temporary and contract assignments as well as permanent roles in software, IT support, and controls/automation. Reliable, quick to learn, and comfortable working with teams and the public.

EXPERIENCE

Programming Peer Tutor | St. Clair College, Windsor, ON — Sep 2024 – Dec 2025

- Tutored 30+ students in 8+ languages and frameworks, including JavaScript, Java, Python, PHP, and SQL
- Diagnosed errors in student code and guided step-by-step troubleshooting
- Reviewed assignments and gave feedback on code quality, structure, and best practices

IT Consultant (Software Testing) | FDM Group, Toronto, ON (Remote) — Nov 2022 – Apr 2023

- Executed functional and regression test cases against business requirements
- Logged defects in Jira with clear reproduction steps and severity; validated APIs with developers before release
- Worked on an Agile/Scrum team through stand-ups, sprint planning, and retrospectives

Teaching Assistant | University of Windsor, Windsor, ON — Jan 2020 – Apr 2020

- Graded assignments and exams for 40+ engineering students and gave written feedback on technical reports
